MISCELLANEOUS.

CHEAP
FAMILY SEWING MACHINES!
THE undersigned would beg to call the attention of the public, and of the Ladies in particular, to the Little Giant Sewing Machine, now in operation at his rooms in the
Law Buildings, cor. of Wisconsin and Main Sts.,
in this city. These machines are alike adapted to sewing linen, cotton and woollen staples, simplicity their construction, work easily and rapidly, not easily got out of repair, and are sold at a price so moderate, as to place them within the reach of all. A child of twelve years old, will do more work in one day with one of these machines than can be done in a week by the fingers of the most industrious.
Ladies and gentlemen from city and country are respectfully invited to call and examine it, and if pleased with its operation, leave their orders. Prices $10 and $15.
Country rights for sale, and machines furnished to purchasers of Territory at a liberal discount.
Industrious, intelligent young men, of good address, will do well to engage in selling the "Little Giant." Office hours from 8 to 12 A. M., and from 2 to 5 P. M.
Correspondents of the late Agent, T. W. Johnson, of Chicago, will please address,
E. SPRAGUE, Agent,

The Wisconsin Almanac and Annual Register for 1857.

We are at length able to fill orders for No. 2 of this pamphlet. We have republished in it all of the valuable tables given last year, with the interesting articles descriptive of the State, prepared by Dr. Hoyt, of the Secretary of State's office, and have added much other valuable matter. The table of Contents is now as follows:

Eclipses of 1857.
Calendar for 1857.
Presidents and Vice Presidents of the United States.
Cabinet and Supreme Court, U. S.
State Officers in 1856.
Supreme and Circuit Judges in 1856.
Description of Wisconsin—Surface, Climate, Produce, Education &c.
Description of each County.
Annals of the Legislature, giving names of all the members from the beginning.
Votes cast for Governor since 1848.
" " " Members of Congress
" " " Judges and Presidents of U. S. Circuit Judges.
Time of holding Circuit Courts.
Valuation of property by Counties, from 1848 to 1855.
Valuation in detail for 1855.
Census of Wisconsin from 1825 to 1847.
" " " from 1850 and 1855 by Counties.
Census of 1855, by towns.
The Gubernatorial contest.
Extra Session of 1856.
Legislature of 1857, names of members.
Apportionment Law.
Vote for President in 1856.
Vote for Congressmen in 1856.
County Officers and Seats of Justice, 1857.
State Officers for 1857.
Judiciary of the U. S.
Senators of the U. S.
Times of holding general elections.
Vote for President in the several States for 1856.
Rail roads in the several States.
Valuation of property in the U. S. by States.

The above, it will be seen, presents a compilation of statistics which can be had in no other form, and the pamphlet will befound exceedingly valuable for reference.

Meeting of the Legislature.

The Legislature of Wisconsin convenes at Madison on Wednesday of this week, at 12 M. Both branches being largely Republican, the organization will be made without difficulty.

With a majority in both Houses, and the Governor also Republican, our party comes for the first time under entire responsibility for the doings of the session. We believe that the wisdom of the people who have so arranged political matters will be amply vindicated in a short, business session. Several of our Republican cotemporaries are indicating subjects which they think should engage the attention of the Legislature, and among these are a Personal Liberty Law, protecting the persons of our citizens from being incarcerated by Federal Judges in the jails of the state—and a law submitting to the people the question of free suffrages to Colored Persons. We fully concur in these suggestions.

We think that steps should be taken to provide, if possible, a just and equal Assessment Law, and we might name other topics of interest; but they will come up in their time.

We shall, as usual, furnish the readers of the *Sentinel* with early and full reports of the proceedings, from day to day.

The United States and Great Britain.

The reception of the rescued exploring ship *Resolute* by the English, and the fact, recently announced, that Capt Hartstein and his officers, who took the *Resolute* to England, are to be brought back to this country in the *Retribution*, one of Her Majesty's finest war steamers, are only new illustrations of the manner in which Providence "shapes our ends, rough-hew them how we will." How many times within the past few years, when the bad passions and jealousies of inconsiderate men on each side of the water were aroused, and there seemed danger of an open outbreak between the two great nations of the earth, has some act of human kindliness on the part of one or the other thrilled through the hearts of the people, and warmed them towards each other, so that the rising storm has at once subsided! We all remember how violent were the feelings aroused between portions of the two peoples, about the time of the breaking out of the Irish famine, when the whole souled sympathy on the part of the American people, and their generous supplies of food to the starving, awakened a spirit of brotherly kindness between the English and American people, which it had been vain to attempt to disturb.

Another occasion of the kind was the fitting out of the American expedition to the Arctic Seas, in search of the lost English explorer.—Still another was the rescue of a large number of passengers and troops from a sinking American steamship, and their conveyance to New York in the English ships *Lively* and *Three Bells*.

And now, still later, while portions of the people of the two countries, and leading men in both, were engaged in fomenting trouble, and a British Minister and several consuls were peremptorily dismissed, there came drifting down with the ices of the great Northern Seas an abandoned English exploring ship. She is brought to New London by one of our whalers, bought by Government, refitted, and sent back as an offering of friendship to the English people. The cold "hearts of oak" leap in sympathetic response to the kindly offering, and there rushes again the last speck of trouble.

There is a meaning in all this, if we could but see it. The two kindred nations, speaking the same language, the most intelligent, free, and powerful in the world, have a joint work to do as the years roll away. How soon the time may come, none can tell.

Obstructing the Circulation of Newspapers.

—In relation to the movement which seems to be on foot among some of the democratic papers of the country to crowd postmasters into discriminating against those who choose to take Republican papers, the Oshkosh *Democrat* (Rep.) says;

One thing our friends on the opposite side of the house must bear in mind, is, every effort to abridge or obstruct the circulation of Republican papers, will in the exact ratio to the amount of effort employed, result in extending the circulation of the same. Try it, and see if this will not be the effect. Better go one step further and refuse to deliver Republican papers at all.

We are not sure that the movement has not its origin, after all, with the postmasters, who see the natural result of it, and naturally wish to increase their perquisites. We are sure that our weekly list has already been largely increased by the operation of this sort of petty persecution.

☞ Will Gen. King tell the people, what the "born old Roman" has ever done for Wisconsin to entitle him to these compliments?—*Portage City Independent.*

The *Independent* will see, by looking again at the article which it publishes, that no language of ours is given in it. It is a letter to the Washington *Union* by somebody unknown.

Milwaukee & Horicon R. R.—Stevens Point determined to have it!

The Stevens Point *Pinery* remarks, in relation to the pushing northwestward of railroads from Chicago:

Now we have not a feather to oppose to Chicago's coming here in the cars to-morrow; indeed we hope she'll do it, to-morrow or next day—and we rather expect it. But it would not depreciate the weight of a feather our preference for the Milwaukee and Horicon Road over all others; nor divert us for a moment from applying all our energies to early completion! That is the most complete R. R. project in the west; From Milwaukee to Bayfield and Superior City! an air line of 280 miles through the center of the State! If ever there is a Pacific R. R. ours will connect with it at Superior City.

The Milwaukee and Horicon, is the best managed Road in the West; and in two years its stock will be second, in market, to that of no other western road.

$402,000 *have been subscribed to it in this village!*

Lake Superior Items.

From the *Chronicle* of December 9th, 16th and 23d, received yesterday, we extract the following:

Much land is being entered at the land office in this place by pre-emption.

Since the passage of the Railroad bills by the Legislature the prices of real estate have had an upward tendency, and town lots and lands meet with ready sales. Lots have advanced fifty per cent. Shares in the town that two months ago were offered at $9,000 and $10,000, now as readily bring $15,000. Unimproved lands within five and six miles of town are selling from five to thirty dollars per acre. The advance in the prices of real estate is an evidence of the great prosperity of Superior.

Quite a busy intercourse is now being carried on between St. Paul and Superior. Two teams arrived last evening, and report that there are ten or twelve more coming. They bring us fresh pork, beef, venison and bear meat. Several of our citizens have made purchases of goods and cattle, at St. Paul, amounting to upwards of six thousand dollars.

In the early part of last week we had rather cool weather—the thermometer indicating at one time twenty-one degrees below zero. At the present writing (Tuesday morning) it has moderated, and the sky indicates more snow.

We learn from the thermometrical record of the St. Paul *Minnesotian*, that from the third to the seventh of December, the thermometer at that office stood below zero. By a comparison with our record of the same days, we find from seven to eight degrees difference each day in our favor. The coldest weather experienced at St. Paul up to our latest dates was twenty-three degrees below zero, while the lowest reading noted at this place was but fourteen degrees below. We would recommend Superior as a place of winter resort for our Minnesota friends.

MR. CASS REJUVENATING.—A Washington correspondent says: "Mr. Cass may be seen any day on the Avenue, emulating the fast young men of Broadway, behind a crack span which would be hard to beat, and with a liveried pug—but not quite in character, with the shirt-sleeve patriotism which he exhibited of a summer's night to the b'hoys in Tammany Hall. Cass and Palmerston are about matched in years, if in no other respect, and a real bout would do both the old gentlemen good before going to the grave. Indeed they would sleep well after such a set-to, and it is humane in old Mr. Buchanan to give them the chance.

HOARDING SILVER.—The German correspondent of the New York *Abendzeitung* speaks of one of the causes of the scarcity of silver, which has not hitherto excited much attention. This is the incredible extent to which silver is hoarded up, without regard to interest, by the agricultural population of Germany. Poor as the class may be, they are by no means so very poor as they are popularly represented to be in England and this country; while a very great portion of those at all elevated above downright poverty, are living hand to mouth, invariably save *something*. But of late years, what between the rise of prices and good crops, the German peasants, holding on with grim tenacity to the proceeds, have accumulated large sums, all in silver. For, as the correspondent in question remarks, "our peasants fear both gold and paper money, exchanging them as soon as possible for silver, and fill their chests with solid five-franc pieces and crown dollars, which seldom leave them, unless to purchase from a neighboring farmer an adjacent piece of land."

☞ RAILROAD FESTIVAL AT HUDSON.—The citizens of Hudson, St. Croix Co., gave Dr. Hoyt, President of the St. Croix & Lake Superior R. R. Co., a grand reception on his return from Madison.—In his reply to the address of welcome, Dr. Hoyt says the *North Star*:

"Referred to the La Crosse company making over the granted land north of Hudson, to the St. Croix and Lake Superior Railroad Company, in which Hudson was fixed as the terminus, on the St. Croix, of both roads, the La Crosse Company using the track of the former for seven miles out of Hudson. The road from here to Superior was under contract with a responsible company to be fully completed *in running order by the first of July* 1859.

☞ The Belgian steamer, Belgique, lying in New York, has condemned her iron masts as unsafe and unsuitable, and removed them to substitute wooden ones. It is alleged that the sailors determined not to go to sea in her again, unless they were taken out; they caused the ship to labor from top weight; sprung topmasts, carried away lanyards, sprung below deck, and Jack feared they might break short off and fall through the ship.

NEGRO INSURRECTION.—The following is a dispatch to the New Orleans *Picayune*:

A despatch from Selma states that a negro insurrection has been discovered in Sumner, Marion and Barry counties; that one hundred negroes have been arrested; that one white man was engaged in the insurrection; and that great excitement prevails in consequence.

☞ It is reported from Washington that the House Committee on the post office are preparing a bill, appropriating seven millions of dollars for ocean mail and other service, and which provides that each route shall be advertised and finally given to the lowest responsible bidder, throwing the whole thing open to competition.

A REASON FOR IMPERFECT ENGLISH.—Some of the English papers having found fault with the slightly stammering use of the vernacular by Dr. LIVINGSTON, the returned African missionary, that gentleman excused himself by saying that he had scarcely spoken English for the space of sixteen years!

DISCOVERY.—The London *Athenæum* announces the discovery of a buried Greek city in the Levant, by Mr. Newton, British Vice Consul at Cos. The British Admiralty have sent out in the Gordon steam frigate the apparatus required for excavations, together with cameras and photograph chemicles.

THE BESSEMER IRON PROCESS.—It is stated that the Bessemer iron process does not fully answer the expectations that were at first entertained of it. The Birmingham (England) *Journal* does not anticipate any important change in the iron manufacture in consequence of it.

☞ The new chief of police of New Orleans has adopted a novel mode of notifying the public of the personal appearance of the light fingered gentry. It is to fasten their hands behind them, place a poster upon their backs with name, profession, &c., and parade them about the hotels and public places.

☞ Mayor Hall, of Brooklyn, was presented on Wednesday evening with the deeds of a house and lot in Livingston street, in consideration of his service among the sick, during the prevalence of yellow fever last summer. The house is of brick, three stories high and basement. The lot is 75 feet front and 156 feet deep.

☞ Russia has adopted the new style in calendar time. Heretofore the dates of all Russia officialism have been fifteen days behind the almanac of the rest of the world. The Georgian calendar is at last proclaimed by the autocrat.

TRINITY CHURCH, OSHKOSH.—The Episcopalians of Oshkosh have just completed a very handsome Gothic Church, seating 500 persons, at a cost of about $7,000.

IMPORTANT FROM KANSAS.

Mr. Arny's Report upon the Condition and Wants of the People of Kansas.

A full statement of the present and future prospects and wants of the settlers of Kansas, would require more time and space than I can at present command. And as a meeting of the National Committee will be shortly held, at which a full statement will be required, I will only briefly allude to some of the most important matters connected with the Territory from which I have just returned.

On my arrival in Kansas some weeks ago, I learned that there was great dissatisfaction existing in regard to the manner of the distribution of aid by the "Central Committee" in Kansas—which was on my former visit constituted the disbursing agent of "the National Kansas Committee." Without assuming to decide in regard to these complaints, with the concurrence of Mr. Hyatt, I deemed it good policy to change our disbursing agents. We have therefore had a new Committee chosen, consisting of Rev. E. Nute, Rev. M. Lum, Rev. E. P. Lovejoy, Rev. G. W. Hutchinson, and A. Wattles, Esq., and appointed Charles Stearns, Esq., of Lawrence, disbursing agent, who has given bonds for $20,000, with Gov. Robinson and eight other citizens of Lawrence, as security for the faithful performance of the duties of that office. And we have requested the citizens in each locality of the Territory to appoint persons to inquire into the wants of their respective districts, and report to the above committee so that they can be immediately relieved. In addition to this, I expect, as soon as practicable, to return to Kansas and devote a portion of my time in seeking out the worthy sufferers and seeing that they are supplied, as in many cases we have found those deserving and suffering to fail to make application for aid.

There is now in the hands of agents (of the National Committee) in Kansas, money, flour, groceries, &c., to the amount of $10,000, which, with flour, &c., I purchased in Missouri; to be forwarded immediately to the southern part of the Territory, will make a sufficient supply till the first week in February.

CLOTHING.

The liberal contributions of articles of clothing, &c., owing to the closing of navigation earlier than usual, did not all reach the Territory.—Three hundred and twenty-five packages have been distributed, valued at $43,875, which has made many persons comfortable; but we are sorry to say that there are many persons who remained unclad, for some of whom we found it necessary to purchase clothing, they being entirely destitute. One family of eight persons had no clothing but what they made themselves out of corn sacks which were thrown away by U. S. teamsters, after they had fed their mules with the contents. On my way through Missouri, I paid the freight on one lot of goods, and engaged teams to haul them, and directed another lot to be sent by land, which will put fifty-four packages more in the Territory this week. We have stored at Bloomington, Ill., and at St. Louis, 292 packages, which will be forwarded as soon as navigation opens in the Spring. On my arrival in Kansas I found much complaint in consequence of the distribution of goods by the Central Kansas committee which were intended for private persons, and I immediately adopted measures to supply all who were thus deprived of the tokens of friendship and relief sent to them by their friends. Amongst the packages detained on the way are several of this character, which will be delivered as soon as possible after they can be transported to the Territory, and those who have failed to receive their packages will be furnished.

WANTS OF KANSAS SETTLERS, FOOD, &c.

Owing to the constant troubles and destruction of property, there are thousands of destitute persons who will require food and clothing till they can raise a crop; and to furnish which according to all the information I have been able to obtain, it will require some $12,000 per month from the 1st of February to the 1st of September next.

SEEDS AND PLANTS.

In order to prevent the necessity of furnishing the settlers with food any longer than the present season, it will be necessary to supply them with seeds so that they can sow and plant, and raise a crop for next season. We therefore ask the farmers and nurserymen and gardeners of their abundance to forward, as soon as possible after the last of February, in strong sacks, barrels or packages, directed "W. F. M. Arny, Lawrence, Kansas, care of Simmons & Leadbeater, St. Louis, Missouri," Spring Wheat, Spring Rye, Spring Barley, Oats, Beans, good Seed Corn, all kinds of vegetable seeds, plants, trees, &c. We ask especial attention and contributions from the liberal in Iowa, Missouri, Wisconsin, Illinois and Michigan, as the seeds from these States will be better adapted to the soil and climate of Kansas, better than those of the Eastern States, and can be transported at much less expense. We especially solicit from Illinois, Iowa, and Wisconsin, donations of good seed potatoes, to be forwarded as above directed, as soon as the danger of injury from frost will justify.

As Western seeds will suit Kansas best, our Eastern friends are asked to furnish us the funds to pay for the transportation of the donations of the West.

FARMING IMPLEMENTS.

To the manufacturers of farming implements and other machinery, who desire to introduce their handiwork into Kansas, we would say that we propose to establish agencies in various parts of the Territory, the central depots of which will be located at Lawrence, and will be under the direct superintendence of the undersigned, who will act as agent for the disposal of machinery, &c., without charge of Commission; being desirous of furnishing to the farmers and mechanics plows, machines, tools, &c., adapted to the country, at as reduced prices as possible. Those who desire to donate to Kansas settlers, for trial, specimens of their implements, can forward them directed as in the case of seeds, &c, and they will receive prompt attention.

LABOR FOR MECHANICS AND OTHERS.

It is proposed to open in Lawrence a free intelligence office to furnish those who are out of employment with information where they can obtain it.

LAND CLAIMS.

Information will also be given as to the best locations for settlers, and every facility furnished in order to the obtaining of good situations. Full information on this subject will be found in the Report of President Hyatt on his return from the Territory.

PROTECTION FUND SCRIP.

During the troubles in Kansas, when funds were short and food and other things were necessary to sustain those who were engaged in the defence of the people, a committee was appointed who issued scrip to the amount of $23,-858,55. By donations furnished through Gov. Robinson and others $10,758,75 has been redeemed, and $13,898,80 yet remains unredeemed. A portion of this amount is held by citizens of Kansas who have nothing else for their property, which they gave to supply the wants of their fellow citizens, in the times of trouble: by the redemption of this scrip many who are in a suffering condition will be relieved and at the same time an act of justice be performed. This subject will be presented to the National Committee at the meeting, so that some plan can be adopted for their redemption.

EMIGRATION.

To persons who desire to become citizens of Kansas, we would say that arrangements are being made with the various railroads and steamboats, by which emigrants will be enabled to reach Kansas at reduced rates of fare. Information in regard to this matter will be published as soon as the arrangements are fully consummated. We have received inquiries from several families who desire to go the overland route with their teams and cattle. All such are informed that a train will leave Mt. Pleasant, Iowa, the beginning of May next, and those who wish to go with that train are requested to write to the undersigned before the middle of April, directed to No. 11 Marine Bank Building, Chicago. It is not deemed prudent to start before that time, as previous to that time there is no certainty of being able to obtain good grass for the cattle.

CONCLUDING REMARKS.

It will be perceived that it is our desire to furnish aid to the industrious of all classes, and to provide *every* facility in order to aid the mental, moral and physical improvement of the settlers in Kansas. Through the wise and efficient policy adopted by Gov. Geary, thus harassed people now enjoy peace, and that beautiful country is open for settlement, and invites the occupancy of thousands who now live in the older States. As friends of freedom and philanthropists, we appeal to you to furnish the means to better their condition, and at the same time to perpetuate free institutions for your own homes and country, and we trust we shall not appeal in vain.

W. F. M. ARMY.

CLOSE OF THE SUPERIOR LAND OFFICE.—We learn that Col. Patton, the Chief Engineer of the St. Croix and Lake Superior Railroad Company, on Saturday last filed with the Register of the Land Office an authenticated map showing the route of road as definitely located. Instructions had previously been received from the General Land office to the effect that upon filing of the said map, all the lands within fifteen miles of the line of road should be withdrawn from pre-emption and sale. No pre-emptions will therefore be permitted at present within the said limits. Under these instructions all unsold lands lying in Towns 47 and 48, Ranges 11, 12, 13 and 14, and thence south westerly to Town 41, Range 16, on the St. Croix, are withdrawn. It is expected, however, that all the lands not selected by the Railroad Company will be shortly restored to market and rendered subject to private entry.—*Chronicle, Dec. 25.*

Southern Wisconsin Railroad.

In the *Sentinel* of to day will be found two articles relative to the proposed connection of our Galena neighbors with the S. W. R. R. They are evidently written by pretty sanguine pens, sanguine we mean as to the time of the connection—still they shadow forth something of the amount of business which this road will be called upon to perform. The Galena people are springing to the work of public improvement with an energy praiseworthy in the highest degree. Very soon they are to build a road from their city into the interior of Iowa, which will become a continuation and feeder of this, and an improvement to its stock.

We of Monroe, expect to shake hands with Milwaukee about the 1st of August next, but the impracticability of completing the road to the point of intersection of the Galena branch next fall, is very manifest to every person the least bit acquainted with the lay of the land. The parties interested, however, will effect the union as soon as possible.

The track laying on the S. W. R. R., has already progressed three miles this side of Janesville, but not much can be done effectually during the rigorous weather that is and has been inflicted upon us these latter days. With warmer weather, the enterprising contractors will close up the work fast. The grading, with the exception of a very few sections, is all finished up between this point and Janesville, so that nothing is left but the lighter work of track laying and ballasting.

Railroad Matters at Lake Superior.

(From the Superior Chronicle of Oct. 23d.)

On Thursday evening last, Col. Robert Patten, Chief Engineer of the St. Croix and Lake Superior Railroad; R. K. Gregory, Esq., Assistant Engineer; John Jones, Esq., agent for contractors; and Messrs. Fields and Elliot, of Pennsylvania, arrived from Hudson. Col. Patten will remain with us for a few days, and till operations on this end of the route shall have been commenced. He will then visit Bayfield, from which place he returns to Hudson.

John Jones, Esq., is the general agent for Messrs. Dillen, Jackman, Jarrett & Co., the contractors. He is busily employed in organizing his forces to commence operations the first of January. The work of cutting out the line of railroad, and improving it to be used next season as a wagon road; and the construction of permanent docks on the depot grounds of the railroad company, at the mouth of Nemadji river, will be commenced on that day.

Teams are now engaged in distributing supplies, for the prosecution of the work next summer, at the station on the mineral range and at Black River. The most important work, and to which particular attention will be given, is at the crossing of the St. Croix. The bridge at that place will be an extensive and substantial structure. The crossing of the mineral range, no less important, will also receive especial attention.

As large a force as can be procured will be employed this winter; and after the opening of navigation we may expect to see from fifteen hundred to two thousand men at work on the road. We understand that highly favorable proposals for the bonds of the St. Croix and Lake Superior Railroad Company have been received, which gives us increased assurances of the speedy completion of this portion of the road.

Correspondence of the N. Y. Tribune.

From Washington.

WASHINGTON, Jan. 4, 1857.

The self-constituted leaders of the South are by no means satisfied with Mr. Buchanan's programme, so far as it is understood or indicated. Of the men named, not one is regarded as strictly identified with the dominant sentiment. Cobb of Georgia, it is true, is accepted of Stephens and his interest, but not as a representative man.—They had antecedents together a few years ago, and it might not be convenient to separate now. But Floyd, Benjamin, Rusk and that class do not answer the high-seasoned exactions of the fire-eating gentry. They have said as much to Mr. Buchanan by word of mouth and by letter, and they mean to repeat the protests when he appears here a month hence. Nor are some of the selections from the Free States more palatable.—For example, the preference of Clifford over Toucey is especially condemned, not only because the latter is admitted to be the superior of the former, but because he has made "sacrifices for the South." They forget he has an eye upon a foreign mission, and will probably have his foot in it before many moons roll over his head. If this principle of rewarding doughfaces be adopted as a rule of patronage, Mr. Buchanan will discover that his pension roll will soon assume a sectional shape. In about fourteen States there are victims enough for a catalogue as long as the moral law.

The Woodworth Planing Machine Patent.

WASHINGTON, Tuesday, Jan. 6, 1857.

I am able to assure the anxious souls all over the country that the agent and manager of the enterprise for a renewal of the Woodworth Planing Machine patent has given up the struggle and gone home. It was found impossible to get the bill through either House of Congress.—Plenty of Members would have liked to vote for it, but were afraid of their constituents, who take "The Tribune." Previous, however, to discovering the hopelessness of the scheme, the agent in question had spent ten thousand dollars among the correspondents of various influential and uninfluential newspapers. Bad investment.

NEW YORK FIREMEN.—A correspondent of the Cleveland *Herald* has witnessed the doings at a fire in New York, and gives the following description of them. We think he have heard something very like it hereabouts:

Again and again the sullen note trembled on the night wind. It told of a fire in the VIIth District. From subterranean saloons emerged excited men who scrutinizingly scanned the sky, and then hurried off. A man, working on his overcoat as he ran, clattered noisily by, and cut across the Park. A great tintinnabulation, uproarious whanging and crashing of gongs, diabolical yells, and a frenzied crowd of men and boys, amid the glare of flaring torches and the red light of lanterns, tore down Broadway with the machine bounding madly after. Still continue the warning urgings of the big bell, never tiring and always crying, as it were, haste! haste! haste! Where is the fire? In the vicinity of Nassau st; the sky has lost its wonted hue, and now blushingly reflects the ruddy glow of the dawning conflagration. The streets are now alive. A hose-cart leaps along; forth from its whizzing reel the leathern hose is dashed—the conduit of rescuing Croton. In the vicinity of the fire, the corners of the streets swarm with struggling crowds, and with countenances death-hued from the reflection of the fire, they gaze on the devastating progress of the flames. Hoarse shouts fill the night, while through the black and swollen tubes, forced by energetic strokes, rushes the troubled water, and spirting high from brassy nozzles, it penetrates the veil of smoke and flame to overcome and subdue.

The engines clank and clank monotonously.—The Foreman, though, of No. x, stationed on the tower of that bully tub, is evidently fairly crazy with professional excitement. He stamps with rage, and curses, vituperates and entreats in one and the same breath. The men on his machine becoming weary, relax a little in their exertions; forthwith shub he breaks out: "Come boys, *do* put a little more beef on, don't go to sleep on them brakes, whack her down lively now!"—a pause—"O fels! do jump, there's the Thirty-Sixes a washin' you clean away and I'm getting drownded, Wake up, blast you!" and the x boys waking up accordingly, better and whack away with redoubled energy to the infinite content of the foreman, who views their violent exertions [illegible] except when aroused to a with much placidity, [illegible] fresh ebullition by a deficiency of [illegible] plication, upon which he waxes once more hortatory, mandatory and imprecatory.

☞ Mr. Peabody has, within a few days, made another munificent donation for the benefit of his former fellow-citizens in Danvers, namely:—For the maintainance of the Library of the Institute, $1,200 a year during the remainder of his life. For the establishment of a Branch Library in Danvers, (formerly North Danvers,) the sum of $10,000.

The Cooper Institute, New York City.

This noble structure is a monument of foresight, skill, and comprehensive benevolence which will outlive the useless Pyramids which cover the mummies of Egyptian Kings. Here the seeker of truth will pay no tax; the lover of learning will pass through no rigor of tariff or Custom House. The library, reading-room le tare-room, laboratories, sculpture and picture galleries will all be Free. The building has been so admirably planned that the rent of the lower stores will pay the whole annual expenses of the Institute. The whole income from the stores and offices will be applied to meeting the expenses and fathering the designs of the Institution. Here is a "foundation" of $40,000 a year as certain and reliable as those enjoyed by the richest and most ancient seats of learning in Europe.

The total cost of this magnificent structure—including the ground, which is 200 feet on the Third avenue, 100 feet on the Fourth avenue, 140 feet in Eighth street and 80 feet on Seventh street amounts to about $600,000. The structure is of brown stone, with a portico of arches and Corinthian pillars on Eighth street seventy-five feet high and fifteen feet wide. In the basement is a large hall—one hundred and twenty-five feet by eighty two—intended for public meetings and lectures. East of this is a public refectory, with necessary kitchens, store rooms, &c.

The first story is occupied by nine superb stores running from avenue to avenue. The second story is designed for offices. "The Union" commences with the third floor, which is occupied by a spacious vestibule through which the visitor enters into a grand hall one hundred and twenty-five long, eighty-two feet wide and thirty-two feet high, surrounded by a gallery twenty-two feet wide, supported on fourteen iron Corinthian columns, with dome twenty feet in diameter in the centre. On the east side of this hall, and connecting with it, are eight rooms, designed for a sculpture gallery below and a picture gallery above. The fourth story contains two lecture rooms, respectively eighty-two feet long by forty feet wide; also, a library for the institution, a chemical laboratory, and six rooms intended to be rented for studios.

It is many years since Mr. Cooper conceived the idea of this institution. But great ideas develop themselves slowly; they do not leap, like Minerva, full grown from the brain of Jupiter. Our citizens have manifested no impatience at the comparatively slow progress of Mr. Cooper's architects and builders. There should be no mushroom growth in the development of a design so substantial and comprehensive. When completed, and the plan of the generous donor fully perfected and made complete in all its details, the great whole will equal in the grandeur and importance of its results any institution, public or private, in the city.—*N. Y. Mirror.*

THE WHISKEY TRADE—STUNNING FIGURES.—Some of the New York papers having disputed the claim of Cincinnati, of being the largest whiskey market in the world, the *Price Current* of the latter city says:

There were in this city and vicinity thirty-two distilleries on the 31st of August, which manufactured and sent to this market, during the year, 14,260,045 gallons proof whiskey, in the manufacture of which were consumed 6,426,015 bus Indian corn, besides a large quantity of rye and ship stuff. The average annual exportations of Corn from the United States to Europe, for the last nine years, were 5,274,585 bus, so that the quantity of this article consumed in the manufacture of the distilled spirits sold in this market was 1,151,430 bus *greater than the average annual exportations of it to Europe*, which is about all that is exported from this country. These are the facts in the case, and may be considered perfectly reliable.

Chicago Market.

CHICAGO, Jan. 9.

Nothing has occurred to-day to disturb the quiet of the market. Though but little grain is arriving, it is in rather less demand at unchanged prices. Two car-loads of Spring Milling for shipment to Michigan were sold yesterday at 90 cts delivered on the track. About 4 car of excellent quality was offered and declined at 91c. Other grains are quiet. The supply of Live Hogs has been comparatively lighter than in former years, and this falling-off with the increasing firmness of the Eastern demand, continues to raise the prices. The market in Dressed Hogs to-day rules higher, but few sellers less than $6,75.

L. C. & MIL. R. R.—The *Tribune* of the 7th says:

La Crosse is dull as low as 69, but closed at 71 bid. The decline to-day was occasioned by rumors of legal proceedings having been taken by the Lake Superior Company against the La Crosse. This latter Company upon obtaining the grant of lands from the State for the building of a road to Lake Superior, transferred that portion of the grant north of St. Croix to another Company. The La Crosse Company are unwilling to make a legal transfer of its rights, &c., until authorized by the Legislature, thus releasing themselves from the liability of building that portion of the road. The proceedings in question, we understand, are taken by the Lake Superior Company to compel an immediate transfer.

The Circuit Court will be opened this morning at 9 o'clock. The Petit Jury were summoned to appear at that hour, and the Judge gave notice that at 9 o'clock the whole Jury panel would be called, and any one not answering to his name would lose his attendance for that day.

We believe no day has yet been fixed upon for the murder trial, nor have we heard of additional evidence in relation to the actual killing of the woman, but think best not to publish it at present. We learn also that the accused have retained Mr. SCARRITT, the recent Jailor, and Mr. CORNER, as their counsel.

Letter from Kansas.

LAWRENCE, K. T., Dec. 25th, 1856.

MR. D. HOLTON:—I hereby acknowledge the receipt of a box of clothing, in which were valuable articles of clothing for Mr. and Mrs. LOVEJOY, and we herewith tender our most grateful acknowledgments, for ourselves and in behalf of the needy in Kansas, whose wants have been relieved, by the timely aid of the "Ladies Kansas Aid Society," in Milwaukee and others, who have so liberally contributed to our necessities. May the blessing of our Heavenly Father rest upon them.

CHARLES H. LOVEJOY,
JULIA H. LOVEJOY.

THE CHICAGO LOTTERY.—An extensive Lottery has recently been drawn in Chicago, and we have been told that not less than four or five thousand tickets were taken in this city, out of which, we believe, one man drew a couple.

We have been overrun with applicants for the Chicago papers containing an account of the drawing, and we make this notice of the affair to save ourselves further trouble. The papers have disappeared, long ago. The last we heard of one of them, it was in the hands of a knot of men who were looking to see how near they came to drawing a prize.

COMMON COUNCIL PROCEEDINGS ON SATURDAY NIGHT.—The Railroad Committee reported in favor of issuing $100,000 bonds to the Milwaukee & Lake Superior R. R. Co., on the 2d mortgage, secured by the personal bonds of several of the Directors.

Ald Taylor opposed the passage strenuously. After considerable discussion, the resolution was tabled, 9 to 6.

A. BECK was appointed a policeman.

Three acres of ground near the old Poor House were granted for the Hospital.

A thousand copies of the Board of Trade Report, at 20c each, were ordered.

INSTRUCTION AND AMUSEMENT.—This evening DR. BOYNTON gives his extra lecture and philosophical experiments. If we can judge of the interest of the lecture by the experiments advertised, and the enthusiasm with which they were received elsewhere, we should suppose there would not be a spare seat in the hall this evening. Such an exhibition must be as instructive and valuable as it is amusing. We understand it is the only one of the kind which the engagements of the Hall will enable Dr. Boynton to give in Milwaukee.

TRIBUNE ALMANAC FOR 1857.—We are indebted to the publishers for a copy of the *Tribune Almanac for 1857*, just issued, and containing the usual amount and variety of valuable and reliable statistics. "Greeley's Almanac" has grown to be one of the indispensables of an editor's sanctum, and every man should own a copy.

☞ WILSON has received supplies of the Almanac, for sale.

☞ The Common Council on Saturday night appointed as a policeman Albert Beck, in place of one of the members who had resigned. If the new appointee has the same mettle and sagacity as his brother, the present Chief, the accession is a valuable one.

CLOTHING.—SHERMAN & Co. make liberal offers of their fashionable stock of clothing, prior to removing to their new store, now being fitted up for them.

OPENING OF THE WARD SCHOOLS.—The schools of the 1st, 2d, 5th and 6th Wards are to be opened to-day, for the winter term.

WILLIAM DANIELL,

TEACHER OF MUSIC,

Graduate of the Royal Academy of Music, London.

RESPECTFULLY solicits pupils for instruction on the Piano Forte, Singing or thorough Bass. He has recently removed to this city, and to the consideration of those whose views are favorable to a thorough acquirement of Vocal or Instrumental music, he offers a portion of the testimonials received during nearly twenty years experience at the South. Among his pupils have been members of the following families:

Major General Scott, United States Army.
Commodore Jones.
Judge Stannard.
Governor Gilmore.
General Payton.
W. H. Mitchell.
—— Anchinoloss, Esq.
C. Osborne, Esq.
J. Y. Mason, Secretary of the Navy.

—— Miller, Esq., of the firm of Lee, Miller & Daton.
—— Hosmer, Esq., " " Hosmer, Hoxie & Co.
G. W. Peckham, Milwaukee.
E. Coit, Milwaukee.

TESTIMONIALS:

We take pleasure in recommending Mr. Wm. Daniell, a Professor of Musical gentleman of unexceptionable character, who has been a resident of this city for the last two or 12 years, and has been teaching in almost every respectable family here with great success, and has given general satisfaction.

T. J. FRY, Richmond, Va.

MORE CREDENTIALS TO WILLIAM DANIELL.

READ! READ!

I HAVE the pleasure to say that Mr. W. Daniell, Professor of Music, has been a resident of this city for many years, he has borne an unexceptionable character for integrity; I have been acquainted with him nearly the whole term of his residence here, and know that his talent, science and proficiency in Music are of a very high order. I have had the better opportunity of forming this opinion from his having taught in my family some years, wherein he testified his superior ability as a teacher, by the extraordinary advancement of his pupils, to the highest grade of the art.

T. G. BLAIR,
Cashier of the Farmers' Bank of Va.

Mr. Wm Daniell has been, for several years past, the Organist of the Church of which I am the Rector. He is a very skillful performer on the Organ and Piano, and I feel gratified to be able to bear testimony to his skill and talent.

INSTRUCTION.

ENGLISH AND MERCANTILE ACADEMY,

No. 49 Wisconsin Street, Milwaukee, Wisconsin

THE PRINCIPAL, RESPECTFULLY informs the Public that the Winter Term of this School commences, Monday, December 8th, 1856.

This Institution, has been in successful operation for seven years. The Academic year comprises 4 terms of 11 weeks each, the first commencing on the 2d Monday of September.

The whole number of Students in attendance at present is 62.

PRIMARY DEPARTMENT.

A competent Female has charge of this department, and children are received at any age.

THE LADIES' DEPARTMENT

IN A SEPARATE ROOM,

Is under the superintendence of Mrs. W. A. HALL. Young Ladies recite in Prof. L.'s classes in English Grammar, Rhetoric, Composition, &c., and are taught a neat and fashionable style of Writing. Instruction is given in Embroidery, Drawing, Music, Latin and German, and scholars are taught to read, write and converse in French daily.

C. F. L. takes pleasure in acknowledging to his friends and patrons the prosperity of this department during the past year. He pledges himself that it will be his constant effort to secure the greatest amount of intellectual and moral improvement, to those entrusted to his care.

COMMERCIAL DEPARTMENT.

This department is under the immediate charge of Prof. Lange. Instruction is given in all the branches of a thorough English and Commercial education, including the Higher Mathematics, French, Latin and German Languages, and is designed to prepare youth for college or for business life. The perfect facilities are afforded to young gentlemen for acquiring, in the most expeditious manner, a thorough knowledge of Commercial Science as practically employed in the Counting Rooms and Business pursuits generally.

The full course embraces the most approved and practical forms for keeping Single and Double Entry, in the various departments of Trade and Commerce, including Company Business with Commercial Calculations to per centage, Exchange, Bank and Regular Discounts, Averaging Accounts by Simple and Compound Equation, &c., according to the most approved methods. Commercial Correspondence, including account sales, money currents, drafts, bills of exchange, &c., &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand Writing guaranteed to every person completing a full course.

During the Session, Lectures on Commercial Law will be delivered by eminent legal and business men, and no pains will be spared to make this department particularly attractive.

The Reading Room will be supplied with the various Daily and other papers, and publications.

Particular attention will be given to Ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and other business men are informed that at any time, by a few days' notice, they can be supplied with competent Accountants, and young men will be assisted in procuring situations when desired.

HEALTHY BREAD!

MADE WITH

JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all saleratus, thereby dealing destruction to thousands no. aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. Many children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS

is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels all other useful qualities, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., C. A. Folsom, Chapin & Gregory, Milwaukee; Eldridge, Strasburger & Co., Madison; E. H. Jones & Bro., Fond du Lac, Wis.; A. Gross & Co., Chicago. JAMES PYLE,

Prairie du Chien Land Agency.

THE UNDERSIGNED having purchased an interest in the Prairie du Chien, (lower town) offers on reasonable terms one hundred and forty lots, situated near said depot grounds of the M. & M. R. R. Co. I am ready to offer inducements that cannot be surpassed in the State, both as to price, terms and location, to all willing to purchase a site for business or a desirable residence.

The City of Prairie du Chien being the

Terminus of the M. & M. R. R.

and situated on the banks of the Mississippi river, tributary to which is the whole State of Iowa and Minnesota. It is unnecessary to make any comments, for it is too evident that it must be the second city of Wisconsin.

To any one wishing to make investments, I would say that I have the agency of a large amount of desirable lots owned by the American Transportation Company, in addition to my own, and can offer my services to any who desire to make an investment that will prove that

Prairie du Chien is the Point to Double Your Money in Twelve Months.

To my old friends, Editors and Contractors and all others, I will say—call and see me, and you will be sure to be rewarded.

Important to Lumberers, &c.

THE SUBSCRIBER is prepared to dispose of two licenses to cut timber on the north shore of Georgian Bay, Lake Huron, embracing an area of fifty square miles, or 32,000 acres each. One is situated on Serpent River, near the Bruce Mines. The other is situated at the mouth, and extends up the Shaw-a-ega River; the timber, and consequently the cost is an almost unlimited water power, near the mouth of the river, up to which vessels of the largest size can ascend. A short distance up the river, the river widens, forming a place in which a large quantity of logs can be boomed. The whole forming unrivalled facilities for carrying on a large lumbering business, and lying nearly on the direct line from Collings coal to Lake Michigan. For prices, terms, &c., apply to the subscriber, at his office, West Water Street.
